

[Microsoft Outlook App For Mac High Sierra](#)

[Microsoft Outlook App For Mac High Sierra](#)

DOWNLOAD

I use Microsoft Office 2011 and have never had a problem with updated OS versions in recent years but if anyone knows the difference between the two versions above that would be great to know IMO.. Spreadsheet mavens may find Numbers a bit weak and if you're used to using PowerPoint the different features may take some learning but all of these apps can handle most productivity needs.
